

Harvey DRC Update

FEBRUARY 2022

WELCOME

This past quarter at the Harvey Day Reporting Center, we have continued to follow COVID-19 health and safety measures while providing our evidence-based reentry services to participants without interruption. DRC participants have continued to benefit from face-to-face engagement with our staff while learning the skills they need to adopt prosocial behavior, achieve their employment goals and successfully reintegrate into their communities.

Thank you to our participants, who continue to work hard to become productive members of society, and to our staff, for maintaining a positive attitude as they provide the highest level of treatment services. Thanks for reading our newsletter, and please stay safe!

Tyria Higgins
Program Manager

SPOTLIGHT ON... OUR DRC CHRISTMAS PARTY

Participants at Harvey DRC enjoyed a special holiday celebration this past December, thanks to a little help from the nearby Covington Day Reporting Center. Target, a community partner of Covington's, had provided free toys and clothing to make sure participants' children enjoyed a happy holiday. Thank you to the Covington DRC for sharing these donations with us. Our staff were pleased to select two female participants to receive gifts for their children. What a way to share in the holiday spirit!

DID YOU KNOW? NATURAL COMMUNITIES ARE ESSENTIAL

By actively working to improve offenders' bonds and ties to prosocial community members, non-residential and residential reentry programs provide an environment that supports and positively reinforces desired new behaviors. Community members can include family members, spouses, supportive others, religious groups, 12-step programs, and other community organizations. These bonds and ties also continue to support offenders as they complete their supervision and treatment requirements and reintegrate more and more into the community.
